

# STOR-IT™ SPEC SHEET

Stor-It end access when closed

Perfect World Luggage part number: **ST1680(A) - MILITARY** or **ST0840 - non-military**

**NO NSN FOR THIS ITEM**

Stor-It is a new, smaller version of the Stor-Mor. Stor-It is built on an identical platform as the Stor-Mor, and includes all of our standard proprietary features but is just over 1/2 of the Stor-Mor's size. When closed, Stor-It transports valuable supplies in a structured, soft-sided, rolling travel pack whose efficient space planning carries far more supplies than bags, duffels or trunks of similar size. When closed, the Stor-It has easy side-access to interior contents without opening the entire case. When needed, the Stor-It quickly and ingeniously unfolds into two flat panels with removable clear vinyl pockets that organize, protect and display all of the packed supplies. The panels can be hung in several different configurations to allow the opened Stor-It to work well in varying conditions. Each Stor-It can be refolded into the closed position in under 2 minutes. Intuitive pockets on the Stor-It exterior make color coordination of more than one pack quick and simple. Proprietary "double" pockets on the Stor-it exterior keep private papers private.
