NO NSN FOR THIS ITEM

Göz is our newest product, developed to accommodate all of the smaller necessities and odds-and-ends that are difficult to store, inventory and transport in an organized and protected manner. Göz transforms in seconds from a small backpack to a flat panel that can hang anywhere or lay flat. When completely closed, there is still complete access to the interior of the bag. The Göz unique features include that all pockets pull off for "grab-n-go" convenience. The arrangement of most of the pockets in the bag is customizable. Many of the "bulk" pockets feature an interior storage pocket for the tiniest of coordinating items. Movable dividers within some of the "bulk" pockets helps Göz easily accommodate the different shapes and sizes of supplies. Göz features pull-off "leaf" pockets that act like pages of a book, and "flip" pockets modeled on the flip cards of a Rolodex. Exterior straps convert from backpack loops to a shoulder strap with just a zip. Intuitive pockets on the Göz exterior make color coordination of more than one pack quick and simple. Proprietary "double" pockets on the Göz exterior keep private paper private.
